Name: Rohit Kushwaha

Email:rohitkushwaha123445@gmail.com

**Contact number: +91 8931911857 **

Summary:

- Full stack developer with 2 years of experience working on both back-end and front-end webapplications.

- Hands-on experience working on PHP and Framework like React.

- Used PHP unit to perform testing to verify the behavior of the components.

- Experienced front-end developer with a passion for crafting elegant and intuitive user interfaces.Proficient in modern web technologies such as HTML, CSS, and JavaScript, with expertise in frameworks like React.

- Skilled in translating design concepts into functional, responsive websites and applications. Strong problem-solving abilities and a collaborative team player committed to delivering high-quality, user-centric solutions.

- All my website designs are always mobile and cross-platform-ready using Bootstrap and CSS.

- Proficient in the end-to-end development lifecycle, from meticulous analysis and design to meticulous testing and deployment. Adept at employing PHP tocreate dynamic, high-performance web applications.

- Well-versed in MySQL databases, with practical experience in MongoDB, showcasingadaptability to diverse data storage solutions.

- Excellent interpersonal and communication skills, the ability to provide solutions from a functional and technical perspective, meet deadlines, quickly build client rapport, and be a teamplayer.

Professional Experience:

RiseBeyond Consultancy

May 2023 - Present

- Designed and maintained Web forms and Banners PHP Coded, and implemented upgrades,patches, code releases, and database changes.

- Collaborated with clients to understand their requirements and develop custom web solutions.

- Designed DB structure with MySQL and MongoDB.

- Designed a Nice and modern Front-end UI. Increased application speed by 30% through codeoptimization

- Implemented responsive web designs using HTML, CSS and ensuring seamless user experiencesacross devices.

- Developed dynamic web applications utilizing PHP incorporating bestpractices for security and scalability.

- Integrated React and Node.js for enhanced interactivity and real-time updates.

- Designed and optimized databases using MySQL and MongoDB to improve performance andreliability.

- Deployed Application to Hosting.

Skills: HTML · CSS · JavaScript· PHP · MySQL· React.js· MongoDB · HTML · CSS · Graphic Design

Projects:

- **E-Commerce** In addition to my proficiency in PHP, MySQL, HTML, CSS, JavaScript, AJAX. I excel in GitHub version control and API integration. Leveraging Git ensures streamlined collaboration and version management, while API integration enhances functionality and connectivity, augmenting my capabilities in delivering comprehensive e-commerce solutions.

- **Real-Estate:** In the real estate project, I implemented advanced property filtering and inquiry functionalities using PHP, MySQL, HTML, CSS, and JavaScript. Additionally, I integrated a live chat system for seamless communication between admins and clients, enhancing real-time support and facilitating efficient property inquiries and transactions.

- **Job-Portal**: In the job portal project, I developed sophisticated job filtering and inquiry features using PHP, MySQL, HTML, CSS, and JavaScript. Furthermore, I integrated a live chat system to enable seamless communication between job seekers and recruiters, improving real-time support and streamlining the job application process.

- **Bakery**: In the bakery website project, I designed and implemented an intuitive user interface using HTML, CSS, and JavaScript to showcase the bakery's products and services effectively. Additionally, I integrated a user-friendly ordering system to allow customers to place orders online conveniently. The website also featured dynamic content management capabilities, allowing bakery staff to update product listings and prices easily.

Branding 360 Company

July 2022 - June 2023

- Enhance application code and improve web pages through client-side and server-side scripting.

- Utilized HTML, CSS, and JavaScript to create engaging and visually appealing user interfaces.

- Implemented backend functionality using PHP ensuring robust andscalable applications.

- Revamping of existing PHP-based modules to React JS and API-based applications.

- Collaborated with cross-functional teams to deliver projects on time and within budget.

- Conducted thorough testing and debugging to ensure the quality and reliability of webapplications.

- Worked with React.js, PHP, and Node(Back-end) frameworks.

- Experience in developing web applications using Responsive web design, Bootstrap, jQuery,

- Boosted application performance through code analysis and recommended solutions.

- Involved in web designing using HTML5, XHTML, CSS3, JavaScript and extensively used table-less.

- Design in CSS for positioning.

Skills: HTML · CSS · JavaScript· PHP · MySQL · MongoDB · HTML · CSS· Graphic Design

Project – E-commerce, Real Estate, Service-Provider.

Education:

- Bachelors in Computer Application from Ignou, Telibagh, Lucknow.

- Intermediate from S.V Inter College.
