EDUCATION

Lucknow University

MCA Computer Application

CGPA: 8

Lucknow

DEC 2020 - JUNE 2022

EXPERIENCE

Infinisea Software Private Limited | Software

Lucknow | Feb 2022 - Present

- Over 2 years and 5 months of professional experience, specializing in Angular, Node.js, and MySQL technologies.
- Successfully led the HRMS (Human Resource Management System) project, delivering it with high accuracy and minimal bugs. This project:
 - Streamlined human resource management processes.
 - Covered salary management, attendance tracking, leave calculations, and increment processing.
 - Is currently in operation and utilized by government authorities like the Varanasi Development Authority and the Uttar Pradesh New and Renewable Energy Development Agency (UPNEDA).
- Delivered the ICMS (Illegal Construction Monitoring System) project, playing a crucial role in preventing unauthorized constructions. This system is actively used by the Lucknow Development Authority.
- Completed the MDM (Mid Day Meal) project, designed to efficiently manage the government's midday meal system.

After approval of FIR , Convert in case , and Send the Realted zone officers.

A responsible person can cross the case.

Hearing-Date Updation while the case end.

MDM (MID-DAY MEAL)

JavaScript, Angular, Node.js, MariaDb

We are making this software for the Up government it is under development.

First of all I design all the screen.

Then I wrote API To fetch and move all the data
