PROFESSIONAL EXPERIENCE

MERN STACK DEVELOPER(Trainee), Sep 2023 – present | Kinfra, Calicut
BRIDGEON SOLUTIONS

- Actively collaborated with seasoned developers as a MERN stack intern, engaging in the development of cutting-edge web applications.
- Embraced industry best practices, continuously refining skills, and delivering impactful contributions to project success.
- Engineered high-performance RESTful APIs to optimize data flow, elevate user experience, and enhance functionality, resulting in a 50% increase in overall application performance.
- Demonstrated proficiency in Git for effective codebase management, fostering a collaborative and well-organized development environment conducive to team productivity and project success. Achieved a 30% increase in efficiency.
- Conducted in-depth research into emerging technologies, driving significant enhancements to ongoing projects. Integration of innovative solutions led to meeting evolving client needs by 40%.
- Successfully collaborated Scrum Agile Methodology, resulting in improved project efficiency, with development cycles accelerated by 25%.

PROJECTS

DAILYGRID, Project Management Tool(Live) Aug 2024 – present

My Role

- **Space Management:** Designed and implemented the space management module, enabling users to create, update, and delete spaces within workspaces, ensuring organized and structured project environments.
- **Task and List Management:** Developed a dynamic task and list management system, including drag-and-drop functionality, allowing users to seamlessly move tasks between lists and update their statuses in real-time.
- **Razorpay Payment Gateway Integration:** Integrated Razorpay for secure payment processing, including subscription management and webhook handling, providing a seamless payment experience for users.
- **Advanced Search Functionality:** Implemented global and single search capabilities with query parameters, allowing users to efficiently search across workspaces, spaces, lists, and tasks, improving overall productivity.
- **Daily Standups:** Contributed to daily standups, ensuring consistent communication and alignment with team goals and project milestones

URBANNEST, Real-Estate

Apr 2024 – May 2024

website(React,Node,Express,Mongodb) [↗](#)

- **Developed a responsive UI** using React, increasing user engagement by 30%.
- **Launched frontend on Vercel**, achieving 99.9% uptime and halving deployment times.
- **Engineered RESTful APIs** with Express.js, efficiently handling 1,000+ requests per second.
- **Implemented MongoDB** for scalable database management, supporting 200% data growth annually.
- **Managed backend on AWS EC2**, ensuring 99.9% uptime and scalability for 10,000+ concurrent users.
- **Integrated Google Authentication**, boosting login success rate by 40%.
- **Created JWT-based authentication**, enhancing security and reducing session hijacking by 25%.
- **Incorporated Twilio for OTP verification**, cutting fraudulent sign-ups by 35%.

BABYQUE,

Dec 2023 – Jan 2024

E-Commerce(REACT,NODE,MONGODB,EXPRESS)

- **Led the creation of BabyQue**, an online marketplace for baby merchandise, boosting user engagement by 40%.
- **Implemented JWT-based authentication**, reducing security vulnerabilities by 50%.
- **Coordinated real-time order tracking**, increasing user satisfaction by 35%.
- **Deployed MongoDB** for efficient data management, improving retrieval and storage by 30%.
- **Arranged Node.js and Express.js** for the backend, enhancing server response time by 25%.
- **Developed dynamic admin and user modules**, improving administrative efficiency by 20%.
- **Authored React.js frontend**, increasing user satisfaction by 15%.
- **Integrated Stripe for secure payments**, increasing successful transactions by 20%.

EDUCATION

IGNOU,

Jan 2024 – present

Bachelor of Computer Application(Ongoing)

GHSS Chelari, Commerce

Jun 2015 – Mar 2017

SKILLS

React | MongoDB | Express.Js | Node.Js | HTML/CSS | Redux Toolkit |
Bootstarp | Github | MUI | Stripe | Cloudinary | JWT | Figma |
Agile scrum methdology | aws EC2 | Nodemailer | Twilio
